---

## PROFILE

Aspiring **Software Developer** with experience in **MERN stack**, **React Native**, and **Data Structures & Algorithms (DSA)**. Skilled in building **web** and **cross-platform mobile applications** with a focus on **performance**, **security**, and clean code. Looking to contribute to **real-world projects** and grow through hands-on experience.

## EDUCATION

Uttarakhand Technical University

Dehradun, India

**Bachelor of Technology** in Computer Science and Engineering

2021 – 2025

## SKILLS

**Languages:** HTML, CSS, JavaScript, C, C++

**Libraries, Framework:** ReactJS, NodeJS, ExpressJS, MongoDB, React-Native

**Database:** MongoDB, MySQL

**Subjects:** Data Structure and Algorithm, Database Management System, Operating System, Object Oriented Programming (OOPs), Computer Network, Software Development Life Cycle (SDLC), Agile Methodology.

**Tools and Software:** Expo, Git, Postman, ThunderClient, RESTful APIs, Cloud Development (Render, Vercel, Netlify).

## EXPERIENCE

Playbees Technology

Remote

**Web Developer Intern**

01/24 – 02/24

- Developed a **website** using **HTML, CSS, JavaScript, and PHP**, enhancing UI responsiveness by **30%**.
- Spearheaded the integration of Razorpay's payment gateway, processing **500+ successful** transactions in the **first week** with zero failed attempts, ensuring a seamless and secure payment experience for all users.
- Collaborated with a cross-functional team of **developers** to implement **full-stack** features, improving **page load** speed by **35%** and enhancing user engagement by **20%**.

## PROJECTS

**Borcelle Kitchen** ([Link](#))

05/24 – 06/24

- Developed** a full-stack food delivery application using the **MERN stack**, securing **1,000+ user** accounts with JWT & bcrypt authentication, reducing unauthorized access attempts by **40%**.
- Integrated Razorpay to process over **500+ transactions**, reducing payment failures by **30%**, and built an admin panel to manage **1,000+ orders** and inventory efficiently.
- Deployed the **frontend on Vercel** and optimized the **backend**, reducing server response time by **40%**.

**BookWorm** ([Link](#))

02/25 – 03/25

- Developed** a **social book-sharing app** using the **MERN stack** and **Expo**, enabling users to post and rate books.
- Implemented** secure **JWT-based authentication**, improving **session handling** and reducing auth errors by **40%**.
- Added **server-side pagination** and **image optimization**, decreasing data load time by **1.8 seconds**.

## ACHIEVEMENTS

- Led a **4-person** team in the CodeChronicles **24-hour Hackathon**, delegating tasks and ensuring smooth coordination, securing **1st place**.
- Solved **1000+ Data Structures & Algorithms (DSA)** problems on **GeeksforGeeks & LeetCode**.
- Ranked 2nd** in Uttarakhand Technical University on **GeeksforGeeks**, recognizing **coding excellence & consistency**.
